

Pendant
4" piece of roving
4" piece of wire

Ornament
6" piece of roving
8" Twine/ribbon/

Pendant
4" piece of roving
4" piece of wire

Ornament
6" piece of roving
8" Twine/ribbon/

Directions:

1. Roll up you're your piece of roving so it resembles a cotton ball
2. Dip it in the water
3. Spray the soaked piece with soap solution
4. Gently move it from one hand to the other—back and forth
5. Begin to gently roll between palms in a circular fashion

The important thing to remember is to go slow

6. You will begin to feel the ball shrink—once this happens you can roll between your palms faster applying more pressure.

Your final product will look like a small felt bead.

Enjoy!
