The library's goals in our partnership with the Head Start are to provide early literacy and family literacy support; to help increase participants' comfort and confidence in sharing songs, rhymes, stories, and language play with their children; to increase participants' access to high quality, age appropriate picture books;

to help incarcerated mothers, their children, and their families develop positive associations with libraries and an understanding that libraries are available as a resource to them.

We are committed to our partnership with the Coffee Creek Head Start, and value the chance to make such a focused impact on the lives of women who are building healthy family skills.

The delicious salad in the last slide can serve as a metaphor for our Head Start partnership:

Some of the moms who work in the facility's vegetable garden grew the vegetables for the salad (using new skills or skills they already had); prepared it; and served it themselves to their visiting families; and we all enjoyed the results of their efforts.
