# State Library of Oregon

## Library Support and Development Services

- Statewide Database Licensing Program
- Provides Oregon residents access to library databases and resources through Oregon libraries
- How to access?
  - Local Library Web pages (usually listed under e-resources or research)
  - [Libraries of Oregon website](#)
  - [Oregon School Library Information System \(OSLIS\)](#)

<https://librariesoforegon.org>

<https://secondary.oslis.org/find-information>

## Oregon School Library Information System

Learn to Research. Research to Learn.

## I Need to... Find Information

These databases and websites provide information that may help with research projects and more. The databases are only available to the Oregon K-12 community.

If you access a Gale resource and are prompted to log in, either enter your username and password, the name of your school district, or the name of your private school.

Your teacher and library staff have the login information.

### Computer Skills, Test Prep, & More

[Middle School / High School](#)

[Questions?](#)

# Career Exploration

- Start with Job & Career Accelerator
- Interest and Skill Matchers – good activity for teens
- Explore Occupations – overview of occupational field, data, prospects for employment – good for graduating students, laid off workers, career and military transitions

# Resume Builder

- Start with Job & Career Accelerator
- Build Resume from templates – provides common structure and formatting
- Sample Resumes – examples of key terms and language used in specific fields, important in age of automated systems processing of resumes
- Cover and follow up letters also available – including interview and follow-up etiquette

# Occupational Test Preparation

- Start with Career Preparation in LearningExpress Library
- Large array of occupational fields requiring certification – nursing, real estate, commercial driving, etc.
- Practice tests plus other study tools – testing modes for studying and simulation of real tests
- Good alternative when library printed materials are checked out, and kept up to date according to test changes

# Demonstration

# Recorded Training Webinars
